PAYROLL & HRM SOFTWARE

HR and Payroll software allows organization to generate pay slips and salary register, based on the attendance of the employees taking care of leaves, overtime, allowances, loans, advance, bonus, encashment and other standard deductions like PF, ESIC, Professional Tax and Income Tax etc.

It is general type of software design to handle the generation of the periodic payroll for all short of business types and sizes.

It is used to replace the tedious nature of manual payroll generation or the sometimes more costly outsourcing of your payroll.

Features:-

- Employee Details (HRM) Employee
- Appraisal/Transfer (HRM)
- Employee Recruitment And Training (HRM)
- Report (HRM and Payroll)

Benefits of HR and Payroll Software

- This software will reduce the work load of HR, employees of the company and other staff also.
- Give you and your HR employee's time for other works.
- It also facilitates faster access of HR related information.
- It manages the entire information of the employees from the time they are recruited till the time they leave the company.
- It provides Security of Data and Right Management.
- Easy to Install, Implement and Use.
- Increase efficiency of Payroll Process.
- More accurate Payroll Tax Records.
- More Organized Record Keeping.
- Flexibility for Payroll Changes.
- Maintain Leave and Attendance Report.
- Accurate Salary Reports.
- Accurate PF, ESIC, Professional Tax and Income Tax Reports.
- Save time and money compared to traditional payroll services.
- Payroll software offers a variety of tax services including calculating taxes and deduction as well as state and local taxes.
- Easily Data Search Facility.
- Edit or Modify Facility.

SCHOOL MANAGEMENT SOFTWARE

Online School Management Software provides the modern facilities for smooth functionality of school Administration. Online School Management Software is user friendly which makes the interaction between the Teacher and the Parents easier.

Nowadays Time Management is a prime factor for success, Online School Management Software helps in saving time of parents; as they can watch the various school activities and their child's progress report along with the teachers remarks, on their PCs. This means that parents are now free from the hassles of taking an appointment from the teacher on some special day or time. They will also be noticed about various school activities which otherwise go unnoticed.

HIGHLIGHTS

- Absolute Interface between Teacher and Parent of the Student.

PRINTING ORDER MANAGEMENT SOFTWARE

It is print order management solution for print businesses. We've got the simple user-friendly, easy-to-use print management and print tracking software you need to manage and track your print jobs, invoice and organize your printer queue to maximize efficiency and eliminate the confusion that can go hand-in-hand with a large assortment of print jobs.

FEATURES

At **Printsoftex** we know that one standard software for print management isn't the right solution for everyone in this business. That's why we created the **Printsoftex** solution -customizable print order management software solutions designed with your business in mind!

User-Friendly Our print management software is designed to be easy to use. Even first time users can understand its functioning with the help of our demo.

Tracking & Audit Report on your printer and copier usage, track who is printing, where print jobs are coming from, how much is being printed, identify discrepancies and audit your printer files very easily and quickly.

Print Order Management & Print Control Easily manage and control the print jobs being sent from each workstation and the amount of printing each user is permitted to do. Once they hit their limit, PRINTSOFTEX will immediately shut down their printing privileges until an admin steps in. That way, no one ever goes over their print quota!

Printer Monitor For large business it is very difficult to track where jobs are coming from. Our PRINTSOFTEX printer monitor solution includes print monitoring of all clients and printers from a single location.

Print Quota and Print Count Let PRINTSOFTEX'S software track your client's (members from any stream) quotas and balance. When a user is over the limit, their print job is pending until they make changes accordingly.

Invoice With **PRINTSOFTEX** tracking your print usage you can easily use their built-in billing software application to handle all your client billing.

WHY YOU SHOULD GO FOR PRINTSOFTEX!

Low Cost

- => No limit for business expansion!
- => Have More Prints @ Same Expenses.

Save Time

- => Accurate Audit saves a lot of time.
- => Well organized system for jobs makes future work easy.
- => Easy database maintenance. Find data whenever needed within seconds.

Hassle Free

- => No Registration and Software Installation Hassles.
- => Simple, Fast and Friendly Process
- => Customer Support!

TYPESETTING AND PUBLISHING SERVICE

Setting type or typesetting is the process of putting text into the right style and size of type and the desired arrangement on the page in preparation for printing. Typesetting was once the realm of skilled typesetters but today is handled by the designer, using desktop publishing software to set type.

We use **QuarkXPress** or **Adobe Indesign**.

Websoftex provides publishing service with cost-effective solutions and support. Our hardworking and professional publishing team designs a unique and appropriate layout as per client requirement. Layout includes setting uniform chapter headings, headers, footers, font styles, as well as adding copyright and title pages. There is no extra charge for the table of contents, front matter pages, or bibliographies.

We are providing some additional services: Image Placement, Image Scanning, Footnote/Endnotes, and Index Inclusion.

Websoftex understands the challenges you face in today's dynamic STM (**SCIENTIFIC TECHNICAL AND MEDICAL**) publishing market. We know you are going to have questions about how to get started, and how to find the right partner. We'd like to offer our help in answering those initial questions and hope that together we can create a solution specifically tailored to your needs.
